

Ketan Bhange

Full Stack Developer — MERN Stack — REST APIs — Java — Data Structures
ketanbhange33@gmail.com — +91-9359402012 — [Portfolio](#) — [GitHub](#) — [LinkedIn](#)

Professional Summary

Full-stack developer experienced in building scalable web applications using React.js, Node.js, Express.js, and MongoDB. Built production-style applications including RESTful APIs, authentication systems, and AI-integrated platforms. Strong problem-solving skills with **400+ Data Structures and Algorithms problems solved**.

Technical Skills

Languages: Java, JavaScript (ES6+), SQL, Python

Frontend: React.js, Next.js (Basics), HTML5, CSS3, EJS

Backend: Node.js, Express.js, REST API Development, API Integration

Databases: MongoDB, PostgreSQL

Tools & Platforms: Git, GitHub, Postman, Strapi, Clerk, Hostinger, Microsoft Azure (Basics)

Core Concepts: JWT Authentication, Role-Based Access Control, Middleware, MVC Architecture, State Management

Projects

ResumeForge — AI Resume Generation Platform with Real-Time Preview

React.js, Strapi, Clerk, Gemini API, Hostinger — [Live Demo](#) — [GitHub](#)

- Integrated **Gemini API** to generate AI-assisted resume content from structured user inputs, enabling automated resume creation with contextual suggestions.
- Developed **15+ reusable React components** to manage dynamic form inputs, template rendering, and real-time resume preview functionality.
- Designed **API communication between React frontend and Strapi backend**, enabling structured storage and retrieval of resume data.
- Implemented **Clerk-based authentication and session management**, securing user login and protected application routes.

TravelNest — Travel Accommodation Platform

Node.js, Express.js, MongoDB, EJS, Clouinary — [Live Demo](#) — [GitHub](#)

- Developed a **full-stack accommodation platform** enabling users to create, manage, and explore property listings with authentication.
- Designed and implemented **RESTful APIs using Node.js and Express.js** supporting property listing management and review workflows.
- Implemented **JWT-based authentication and role-based access control**, securing protected routes and user-specific actions.
- Integrated **Clouinary for image uploads and media storage**, enabling efficient management of listing images.
- Structured backend using **MVC architecture with modular routing and controllers**, improving maintainability and scalability.

Professional Experience

Software Development Intern — Prodigy InfoTech

Mar 2024 – May 2024

- Developed **REST API endpoints using Node.js and Express.js** to support backend request processing and application data retrieval.
- Implemented **input validation middleware** ensuring clean API requests and improving backend reliability.
- Diagnosed and resolved **frontend-backend integration issues**, improving application stability and request-response handling.
- Utilized **Microsoft Azure workspace and cloud development tools** to manage development environments and support application workflows.
- Collaborated using **Git and GitHub pull request workflows**, contributing code updates and participating in team reviews.

Achievements

- Ranked in **Top 2% on Coding Ninjas (2023 Recap)** for consistent problem-solving performance.
- Solved **400+ Data Structures and Algorithms problems** across Coding Ninjas and LeetCode. [Profile](#)

Education

B.E. Computer Engineering, Savitribai Phule Pune University
CGPA: 7.5

2021–2025

HSC (Class XII), Maharashtra State Board
Percentage: 84%

2021
